WE ARE AUTHORIZED TO OFFER FOR SUBSCRIPTION Seven Per Cent. Cumulative Preferred Stock AT PAR.

The Preferred Stock is entitled to a cumulative preferred dividend of 7 per cent., payable semi-annually on Jan. 1 and July 1, and, in addition, to a proportionate share of all dividends declared in any year, after 7 per cent. has been paid on the other stocks outstanding. The Preferred Stock has also a preference in the assets of the Company in case of liquidation over all other stocks. The authorized capital stock of the Company is

\$10,000,000, of which \$4,000,000 is Preferred Stock Shares \$50 each. The portion offered for subscription will be full paid and non-assessable when taken and paid for

Application will be made to list the stocks on the New York and Boston Stock Exchanges.

The proceedings taken by the Company to create this issue of Preferred stock have been submitted to counsel, and they advise us that the reorganization and this issue of Preferred Stock are valid in law-The business of the Westinghouse Electric and Manufacturing Company has grown to its present large proportions in about five years. Its growth has been not only rapid, but continuous, and has fully kept pace with the remarkable development of the electrical industry. Sales are as follows:

9 months, from 1st of April to 31st De-\$141,846.71 12 months, to 31st December, 1887 874,657.87 12 months, to 31st December, 1888..... 1,288,569.41 12 months, to 31st December, 1889 3,618,379.81 12 months, to 31st December, 1890 4,289,086.81 The Company manufactures its apparatus at three fully-equipped factories located, respectively, at Pittsburg, Penn.; Newark, N. J., and New York City, which furnish exceptionally complete facilities

for the manufacture of all kinds of electric light and The Company relies chiefly for success upon the quality and mechanical perfection of its work, although it has more than one thousand patents affording valuable protection against competition. The Company will continue to have the benefit of

the mechanical engineering ability of its founder, Mr. Westinghouse. We have made an estimate of the assets of the combined Companies, and our examination has led us to believe that, after making liberal deductions for all foreseen contingencies, the assets of the reorganized Company will furnish ample security for the total issue of Preferred Stock, without taking into consideration the value of the patents at all, and that the working capital will be fully sufficient to con-

in the interest account alone being sufficient to pay full dividends on this issue. Subject to certain reservations detailed in the prospectus, the examination of the accountants shows an average profit of \$443,140.52 per annum for the

duct the business on an economical basis, the saving

periods considered. We invite subscriptions to the above-mentioned Preferred Stock AT PAR, payable as follows:

10 Per Cent. on Application. 30 Per Cent. on Allotment. Per Cent. on 2d November 30 Per Cent. on 23d November

Subscribers have the option of paying in full for the stock alloted to them, and interest on the anticipated payment will be allowed at the rate of 4 per cent, per annum.

The right is reserved to reject or reduce any sub. scriptions and to make allotments of less than the smounts applied for. In allotments preference will be given, so far as practicable, to those stockholders assenting to the recent plan of reorganization and to employes and dealers in the Company's manufact-

The failure on the part of the subscriber to pay any installment when due shall operate as a ferfeiture of all previous payments. The subscription list will open simultaneously at

MONEY, STOCKS AND BONDS.

There Was a Strong Tone in the Early Trad. ing, Which Weakened Under Late Pressure. NEW YORK, Oct. 10 .- Money on call was easy, with no loans; closing offered at 3 per

cent. Prime mercantile paper 5% @71/2 per cent. Sterling exchange was quiet and steady at \$4.80 for sixty-day bills and \$4.834 for demand.

The total sales of stocks to-day were 23,041 shares, including the following: Atchison, 11,860; Chicago Gas, 4,275; Erie, 6,400; Hocking Valley, 4,910; Louisville & Nashville, 6.200; Missouri Pacific, 3,220; prefered, 4,500; Reading, 3,720; St. Paul, 7,500: Union Pacific, 2,800.

The stock market to-day was very dull and, while showing a strong tone in the early trading, weaked under renewed pressure toward the close, and the early gains were entirely wiped out, except in a few cases. The dealings retained their professional character, and no outside interest | 1.09 . f. o. b.: No. 3 red, \$1.03 @1.03 . uncould be discovered in the market, though the insiders took a hand in some of the specialties, such manipulation most marked in Hocking Valley. There was an irregular, but generally firm opening, and the traders were inclined to discount a good bank statement and bought stocks to cover "shorts" as well as for the long account, and small fractional advances were scored all along the line, while Hocking Valley, which had opened down 's, rose I per cent. The selling to realize at the improvement, however, caused a recession in the stock, though the price was well held toward the close in the face of the weakness of the rest of the list. Further selling on the improvement fol- at \$1.15%. lowed and prices reacted all over the list, and with the publication of the 80 c. ville & Nashville and Chicago Gas being specially prominent in this latter movement. The former retired nearly 1 per cent. and the latter 1's from its best figure, elosing at its lowest. The pressure was extended to the entire list, but did not affect the Nickel-plate stocks, which held on to all they had gained; nor to Louisville. St. Louis & Texas, which rose from 15 to 164, closing at the highest point. A better feeling marked the close, however, which was dull and fairly firm at a shade under the opening prices. The final changes are generally small I sees, but not one of importance was seen.

Railroad bonds were dull, but without feature outside of the Hocking Valley issnes, which are not only active for them. but very strong, especially the fives. The trading was only \$474,500. Besides the one mentioned there were other material changes among the inactive issues.

TRADING AT CHICAGO.

Promise of the First News Failed to Materialize and There Was a Decline.

CHICAGO, Oct. 10 .- The price of wheat was chiefly governed by the tone of foreign advices to-day. Prices were higher most of the day as the result of speculative excitement and decidedly higher prices in Liverpool, but toward the close prices abroad weakened, and under the heavy realizing sales the weak market respouded, and all of the gain over yesterday's last figures was lost with something besides. At the opening the Board of Trade cable quoted futures in Liverpool 1/2 pence higher, while private advices quoted the advance at 2@21/2 pence. Continental markets were quiet, but domestic markets all showed ad- closed at 964c; December, 994c@\$1.004, vances, with New York in the lead, and closing at 994c; May, \$1.054 @1.064, closvances, with New York in the lead, and

sending buying orders to commission houses here. Logan, Schwartz-Dupee, Lamson Bros. and Kennett-Hopkins were all buyers at the start, and "shorts" covered very freely. For a few minutes it looked as if the market was shaping for a boom, but outside trade was excessively dull, and after the | cash, 54% 256c; Otober closed at 51c; the first buying rush was over, business got very slack and realizing became quite general. Prices weakened, but still presented a very stubborn, if not a strong front, and yielded slowly. The "bears" were cautious and kept near shore, so they could readily get into port on indications of a storm. The fact that the government report was due this afternoon had a tendency to make trade dull, as operators were disposed to wait and see what final conclusions on the crop were. Later on, with weaker cables and brilliant weather in the Northwest, under which the rain-soaked wheat shocks were reported to be drying out rapidly, with the prospect of r general resumption of threshing on Monday, the markets grew weak and continued so to the end. December opened at \$1.00% @ 1.01, touched \$1.01%, then receded, with small selling, to \$1.00%, reacted and held for a considerable time around \$1.00%. On the lower cables and North-

a downward movement set in which continued to the close, when the price was at the lowest figure for the day, and weak at 9942c, against \$1.004 at the close yesterday. Corn was a little more active and generally stronger, though there was not much animation in the trade. The speculative demand was only moderate, and sellers were not urgent. Bartlett-Frazier were buying moderately, while Baldwin, Kennett-Hopkins and Schwartz-Dupee were moderate sellers. The receipts were only 61 cars. October opened at 53%c. or 4c higher than yesterday's close, touched 534c, advanced to 534c, then grew weak in sympathy with wheat and the slump in

western weather reports, liberal realizing

and reports that foreigners were reselling.

hog products, and sold off to 53c. at which it closed. Oats were neglected and steady. Hog products were very weak, packers selling freely, and "bears" raiding the market for pork. With the exception of a small rally during the latter part of the session, caused by realizing "bear" purchases, the course was downward, with the result that pork shows a decline of 4712 @ 60c. TRADE IN GENERAL.

Quotations at Philadelphia, Balti more, Cincinnati and Other Points ST. LOUIS, Oct. 10 .- Flour was duli and unchanged. Wheat was excited by strong foreign news; sales were made this morning at the advance, with active trade at about \$1 for December, after which the market quieted down, and prices eased off 120. Another flurry carried the prices up sc. but this advance was all lost, and the market went 11sc below the top, and closed with sellers at the bottom and be below yesterday. No. 2 red, cash, 96%c; October ing at \$1.05%. Corn-There was a steadiness to the market, and that was about all, during the early part of the session, and that was due more to the strength in wheat. INDIANAPOLIS MARKETS.

A Week in Which Trade Was Very Satisfactory in Most Departments. INDIANAPOLIS, Oct. 10.-Trade in the week closing to-day, in most departments, was very satisfactory in its volume, the

fine weather and cool temperature being evidently the needed stimulants. In prices there were but few changes. Goffees, roasted grades, are 1 cent lower than a week ago and weak at present quotations. Sugars, with a decreasing demand, are easier in tone. Canned goods are meeting with more inquiry, although stocks are so large low prices are likely to rule. The provision men report trade in a jobbing way good, and prices on most descriptions firm and steady. Poultry is weak at quotations; markets East overstocked for the first time in months. Eggs are in active request, and bid fair to be higher through the holiday season than ever before. Vegetables are plenty and cheap; the same is true of apples. Peaches are about off the market and firm at prices quoted. Foreign fruits are scarce and rule strong in price. A few days will increase the receipts of oranges and lower prices will fellow. The seed market is moderately active at unchanged prices. Trade is improving with the leather merchants and prices rule firm. The hide market is still flat. Druggists are busy, prices on most lines of goods they handle are firm. Nothing good can yet be said of the flour market.

While the local market is in better shape than in the early part of the week it has not shown the activity which markets at other grain centers have, especially on wheat. The week closes with No. 2 red wheat 2 cents higher than on Monday and firm at the close of the day, and the better grades of corn are all higher. Oats flat.

Track bids to-day ruled as follows: Wheat-No. 2 red, 974e: No. 3 red, 93c; rejected, 85/a 90c; wagon wheat, 95c. Save the Best for Seed. Pittaburg Chronicle-Telegraph.

October is the season for saving most

kinds of field and garden seeds, and all wise cultivators will attend to the important matter carefully. So much depends upon the quality of the seed sown that no farmer or gardener can afford to be careless in making his selection. Every one who has a superior variety of any grain or vegetable specially adapted to his locality should save for seed the very best product thereof. This is far preferable to purchasing, for there can be no question as to quality or genuineness of variety. Be assured that when seed. climate and cultivation are right, farm and garden products will neither "run out" por deteriorate. True, it is some trouble to save seeds, but it pays in both the quality and quantity of the crops produced. In this connection we may appropriately republish a highly approved process for saving melon, pumpkin, squash and cucumber seeds, as follows: Place the seeds in a basin of water; wash and cleanse them thoroughly; then take a skimmer and

lift out and throw away all those that float,

as they are useless. Sometimes half the seed in a melon will float, and, of course,

they should be rejected, as they will not
